

GALA 50

ENJOYING A SAFE SEPTEMBER AFFAIR

September Affair is here and we want to help ensure we enjoy the event with the health and safety of our guests in mind. The following safety protocols and guidelines will be in place during our gala evening:

Only vaccinated guests may attend the event. Please be vaccinated prior to attending.

Tables will be set at least 6ft apart and hotel staff will be masked and gloved. Hand sanitizer stations will be available throughout the hotel premises at select locations and we encourage you to use where available. But feel free to bring your own.

The hotel requires that masks must be worn in all hotel public spaces, including the lobby and the ballroom foyer and exiting or entering the hotel. Please use your own discretion while taking photos at our photo booth and/or the Westin's iconic waterfall. Disposable masks may be available at registration, just in case you forget to bring your own. But, do bring your own mask.

Our event is designated as a private event once in the ballroom space and therefore does not fall under the Kansas City, Missouri Mayor's mask mandate, however we ask masks be worn as you move about the main ballroom. Masks are optional while dining and drinking. Mask exceptions will be for our speakers, presenters and performers during their set presentations during the program.

We appreciate your understanding and we ask that we follow these protocols as courtesy to all our attendees, so that everyone can enjoy the evening as safely as we can. If you have any questions, please email us at septemberaffair@filipino-association.org.
